Vsr Engineering Craft

<https://www.vsrengineeringcraft.com/>

Being a reckoned name we are engaged in manufacturing and supplying Steel Structures and Poly Houses. In addition, we render fabrication services for heavy structures, depending upon clients' specific requests.

About Us

VSR Engineering Craft was founded in the year **1990** as the eminent name responsible for manufacturing and Service Provider of Steel Structures Roof Fabrication Service and Poly houses. Our experts carry out the designing procedure in accordance with the industry approved norms and thus, bring forth products with assured durability, perfect finish, inbuilt strength and capability to withstand ambient weather conditions. Under huge assortment of products we have introduced Steel Structure, Prefabricated Steel Structure and Galvanized Structures, so that our customers must have efficient spacing solutions for their diversified needs. We also offer fabrication services for heavy structures, keeping in concern the details offered by our customers. The perfect task is undertaken & executed following and maintaining industry laid parameters, using advanced operating techniques.

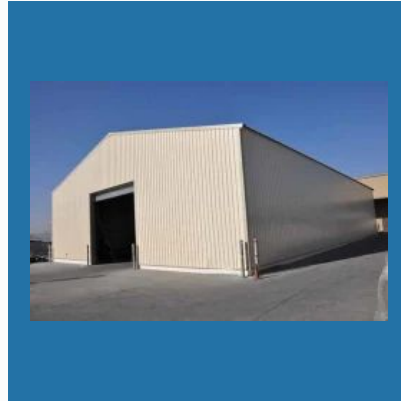

The complete production process is executed under the strict surveillance of our experienced personnel at our ultra-modern infrastructure. Our workplace is sprawled over a wide area, equipped with the latest range of machinery & tools, so that it could be possible for our experts to accomplish their assigned tasks in an efficient way. In the process, we follow & maintain stringent quality protocols, so that outcomes introduced to customers must be integrated with flawless configuration. So, we are here employed in our profound business to establish our customers...
